

ILLUMÏNATE #DIA2023

Want to help spread the word, expand ideas, and allow for an even more comprehensive conference experience?

It's quick and easy! Just follow the steps below to share with your network on social media and grow the conversation.

STEP

Start with some sample messages or share your own.

The #DIA2023 meeting is more than a conference, it's an experience focused on the future of healthcare. Thousands of global innovators will convene to ILLUMINATE the challenges faced when trying to bring the best cures to patients worldwide.

Will I see you at
#DIA2023? Join me
for the Global Annual
Meeting which provides
opportunities to engage
with experts on a new level
and work collaboratively
towards the possibilities
of tomorrow.

To all of my healthcare and life sciences professional friends, you can't miss **#DIA2023**! Join me at the meeting to discuss challenges and ILLUMINATE problem solving ideas

for the future!

Join me at #DIA2023, from June 25-29, in Boston, MA, for an exciting event with more than 170 sessions spanning our 13 unique tracks. DIA 2023 offers nine different learning formats, ensuring that each attendee has the best learning experience possible.

Did you hear?
The #DIA2023 speakers
and sessions list is about to be
announced! Lots of great sessions this
year including <XYZ> talk on <topic>.

STEP

Share which track you are most excited about!

I'm attending the Clinical Safety and Pharmacovigilance track #1 of #DIA2023 to expand my knowledge of the global regulatory environment of clinical safety and pharmacovigilance for medical products. Will you join me? Join me at the Clinical Trials and Clinical Operations track #2 at #DIA2023 to cover the latest advances in clinical research and operations for design strategies, operational efficiencies, and integration of patient outcomes in clinical trial design.

I can't wait to attend the **Data** and **Technology** track #3 at **#DIA2023!** Join me in learning about the innovative technologies improving efficiency in clinical trial data collection.

Discover global insights from the Medical Affairs & Scientific Communication track #4 at #DIA2023. Register today!

I can't wait to attend sessions from the **Patient Engagement** track #5 at **#DIA2023**. Key focuses will be on meaningful patient engagement in medical product development throughout the complete life cycle, how to be truly patient-centric, best practices in generating patient insights and health data, and more! Register to join me.

I can't wait for the **Compliance** track #8 at **#DIA2023**! Join me to gain insights on ICH E6 (R3), topics relating to quality-by-design, how quality briefs are driving innovation to serve

patients, and more!

Join me for **#DIA2023**. I'm most looking forward to the **Statistics** track #11 which focuses on topics relating to ICH E9 (RI) implementation, statistical applications of machine learning and artificial intelligence, the demystification of statistical concepts, and much more!

looking forward to the **Translational Sciences** and **Precision Medicine** track #6 focusing on what's next in precision and personalized medicine, cell and gene therapies, translational strategies for dose optimization, and more!

Join me at the #DIA2023 conference! I'm

at **#DIA2023** to learn more about global regulatory health authority updates, regulatory convergence, collaboration and reliance efforts, and more! Will I see you there?

I'm attending the Regulatory track #9

Will I see you at the **Value and Access** track #12 at **#DIA2023**? This track explores coverage and formulary decisions, implementation science methods to generate evidence to improve access to new therapeutics, the US Inflation

Reduction Act's impact on market conditions,

value-based contracts, and more

Attend the #DIA2023 track #7, Project
Management and Strategic Planning to learn
about agile practices in drug development,
effective decision-making skills, and critical
leadership topics such as how to successfully
lead cross-functional teams!

CMC and Product Quality track #10, covering regulatory CMC and product quality for worldwide markets, drug shortage challenges, CMC related post-approval changes, emerging regulations, and more. I hope to see you there!

Register for #DIA2023 to attend the Regulatory

Don't miss the **Professional Development** track #13 at **#DIA2023!** Join me to discuss how to negotiate your next offer, career planning 101, gender and racial dynamics amongst professionals in life sciences r&d, and insights you can adopt for short- and long-term growth.
