

SPEAKER REGISTRATION POLICY

INDUSTRY EMPLOYEES

Participants of the meeting who participate onsite in concurrent educational sessions will receive complimentary registration for the day of their session(s). Chairs and Speakers are eligible to register for the Global Annual Meeting at a significantly reduced rate. As a program participant, you will receive 75% off your current applicable rate.

Content Hub speakers are eligible to receive a **10% discount** off their current applicable registration rate. Please note, this discount may only be applied to the primary Content Hub Speaker and may not be combined with any other registration discount.

 How to register: <u>Click this link to register</u>. Please note: Your discounted rate will APPEAR ON THE LAST SCREEN at the END of the purchase

FULL TIME REGULATORY AGENCY, ACADEMIC, NONPROFIT EMPLOYEES AND QUALIFIED PATIENT

Full-time government/regulatory agency (except for FDA - the Ethics Committee requires FDA employees to register for the meeting at the applicable rate), full time academic, and nonprofit employees of a 501 (c) 3 organizations that are patient-focused, receive complimentary registration if they are awarded travel support to the Global Annual Meeting. Travel support requests for speakers must be submitted via the Speaker's Corner by no later than March 21, 2022.

DIA2022 will be a return to the traditional meeting experience featuring in-person learning, engaging networking opportunities, continuing education credits, and a vibrant Exhibit Hall. This year DIA **will not** have an option for live virtual attendance at sessions. We recognize that travel is more restrictive and do offer the option of remote/virtual participation to a limited number of speakers who have organizational travel restrictions/policies. A survey was sent in April to speakers to confirm presentation method – please be sure to complete.

All speakers, including Content Hub presenters and Community Round Table facilitators, must be registered in order to present.
